## Predslov

Prieskum sa uskutočnil v rámci medzinárodného výskumu „European Councillor Survey“ ktorý prebehol v rokoch 2023-2024 v 29 krajinách. Podobne zamerané výskumy na miestne samosprávy sa realizujú v Európe už niekoľko dekád, s rôznym zameraním (napr. na starostov a primátorov). Naším cieľom bolo zapojiť sa do tohto výskumu a dať porovnávaciu bázu pôsobeniu našich poslancov miestnych zastupiteľstiev. Dotazník bol pripravený tak, aby bol použiteľný v podmienkach všetkých zapojených štátov a súčasne porovnateľný. Bol anonymizovaný a po doručení odpovedí boli individuálne kontakty odstránené (distribúcia ankety bola oddelená od spracovateľov).

Vstupnou predstavou bolo osloviť 5% vzorku, takže sme chceli pokryť asi 150 miestnych samospráv (a asi 10 % všetkých poslancov zastupiteľstiev na Slovensku). S ohľadom na slovenské špecifiká, sme pridali aj menšie miestne samosprávy a dosiahli pokrytie okolo 7,5% miestnych samospráv, aby bola vzorka výpovednejšia našim podmienkam. Tvorbu databázy respondentov limitovala dostupnosť ich kontaktov, pretože sme používali iba verejne dostupné zdroje pre získanie e-mailových adries. Naša konečná vzorka zahŕňala 224 miestnych samospráv (7,75% všetkých miestnych samospráv na Slovensku, čo kumulatívne ale predstavovalo obce reprezentujúce 55% z celkového počtu obyvateľov Slovenska). Zahŕňa všetky dostupné mestá (takmer všetky a takmer všetkých ich poslancov) a najväčšie miestne samosprávy bez štatútu miest. Pokrývala 114 miestnych samospráv s počtom obyvateľov nad 5000. Približne polovica vzorky je teda s miestnymi samosprávami s počtom obyvateľov do 5000 (vrátane 72 z nich s menej ako 2000 obyvateľmi). V prípade Bratislavy a Košíc boli oslovení len poslanci, ktorí zastupujú celé mesto (teda nie mestské časti).

Oslovených bolo 2812 respondentov prostredníctvom ich e-mailových adries dotazníkovým formulárom pomocou softvéru Qualtrix prostredníctvom distribučného centra projektu v priebehu októbra a novembra 2023. Pri podrobnejšom pohľade sme oslovili 294 poslancov v mestách nad 50 tis. obyvateľov, 593 poslancov v mestách s veľkosťou 20-50 tis. obyvateľov; 523 poslancov z miest s 10-20 tis.; 542 z miestnych samospráv s 5-10 tis. 368 vo veľkostnej kategórii 2-5 tis. obyvateľov a 492 poslancov z malých miestnych samospráv do 2000 obyvateľov. Musíme brať do úvahy, že v malých miestnych samosprávach je oveľa menší počet poslancov. Táto pôvodná distribučná vzorka pokrývala 13,7% všetkých poslancov miestnych zastupiteľstiev na Slovensku, ktorých je spolu vyše 20 tisíc.

Prieskumom sme získali 954 anonymných odpovedí, niektorí respondenti však odpovedali len na vstupné otázky a prieskumu sa odpoveďami vlastne nezúčastnili. Nakoniec sme pracovali s odpoveďami 946 respondentov (33,6% pôvodnej distribučnej vzorky), čo je 4,6% všetkých poslancov zastupiteľstiev na Slovensku (zastupujúcich 192 miestnych samospráv – 6,6% samospráv). Kompletne vyplnený dotazník sme získali od 565 respondentov (to je 59,7% z 946). Pri každej otázke teda mohla byť suma odpovedí rôzna, respondenti na ňu nemuseli odpovedať. Túto vzorku považujeme za cennú, dostatočne robustnú na analytické účely, i v medzinárodnom meradle.

V tomto prehľade sú prezentované základné dáta bez komentárov, organizované podľa vybraných otázok prieskumu (prevažne jedna strana pre otázku). Všetky dáta sú následne analyzované v medzinárodnom kontexte, ako aj v kontexte Slovenska a budú publikované v recenzovaných vedeckých publikáciách. Základné tabuľky početností odpovedí sú v angličtine (frequencies), alternatívne odpovede v slovenčine sú uvedené pod nimi.

Chceme touto cestou veľmi poďakovať respondentom za ich odpovede a čas, ktorý tomuto prieskumu venovali. Ďakujeme aj kolegom z univerzít v Ghente, Darmstadte a Olomouci, ktorí sa podieľali na distribúcii a konsolidácii primárnych dát.

## Preface

The survey was part of the international research project "European Councillor Survey", which took place in 2023-2024 in 29 countries. Similar research on local governments has been carried out in Europe for several decades, but with a different focus (e.g., on mayors). Our goal was to participate in this research and give a comparative basis to the work of Slovak local council members. The questionnaire was prepared in a way that suits all participating countries and, at the same time, allows international comparisons. It was an anonymised survey when individual contacts removed.

The initial idea was to address a 5% sample, so we wanted to cover about 150 local self-governments (and about 10% of all council members in Slovakia). Concerning Slovak specifics, we have added smaller local self-governments and achieved coverage of around 7.5% of local governments to make the sample more informative in our conditions. The creation of the respondents' database was limited by the availability of their contacts because we used only publicly available sources to obtain councillors' e-mail addresses. Our final sample covered 224 local self-governments (7.75% of all local self-governments in Slovakia, which cumulatively represented 55% of the total population of Slovakia). It includes all available cities (and almost all their deputies) and the largest local governments without city status. It covered 114 local self-governments with a population of over 5,000. About half of the sample is local self-governments with a population of up to 5,000 (including 72 with less than 2,000 inhabitants). In the case of Bratislava and Košice, only deputies who represent the city councils (i.e. not city district councils) were included.

Finally, 2,812 respondents were addressed via their e-mail addresses by a questionnaire form using Qualtrix software and through the project's distribution centre during October and November 2023. At a closer look, we addressed 294 deputies in cities with more than 50 thousand inhabitants, 593 respondents in cities with a size of 20-50 thousand inhabitants, 523 deputies from cities with 10-20 thousand, 542 from local governments with 5-10 thousand, 368 in the size category of 2-5 thousand inhabitants and 492 deputies from small local governments with up to 2,000 inhabitants. We have to consider that there are a much smaller number of deputies in small local self-governments. This original distribution sample covered 13.7% of all deputies of local councils in Slovakia, of which there are more than 20 thousand in total.

As a result, we received 954 anonymous answers within the survey, but some respondents answered only the initial questions and did not participate further with their answers. Finally, we worked with the answers of 946 respondents (33.6% of the original distribution sample), which is 4.6% of all members of councils in Slovakia (representing 192 local governments – 6.6% of local governments). We obtained a completed questionnaire from 565 respondents (59.7% of 946). The number of answers could differ for each question, as respondents did not have to answer it. We consider this sample valuable and robust enough for analytical purposes.

This overview presents basic data without comments, organised according to selected survey questions (mostly one page per question). All collected data will be later analysed in an international context, as well as in the Slovak framework, and will be published in peer-reviewed scientific publications. The basic tables in this overview are in English; alternative Slovak answers are listed below.

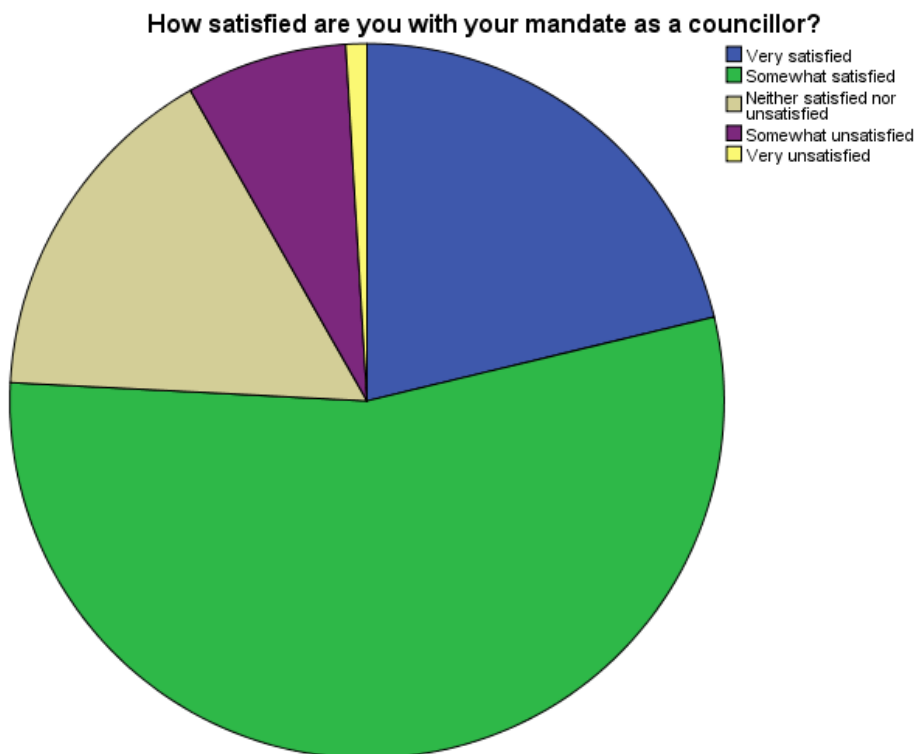

We want to take this opportunity to thank the respondents for their answers and the time they devoted to this survey. We also thank our colleagues from the universities of Ghent, Darmstadt, and Olomouc, who participated in distributing and consolidating primary data.

How satisfied are you with your mandate as a councillor?

Ako ste spokojný so svojim mandátom poslanca (svojím pôsobením)?

|       |                                   | Frequency | Percent | Valid Percent | Cumulative Percent |
|-------|-----------------------------------|-----------|---------|---------------|--------------------|
| Valid | Very satisfied                    | 201       | 21,1    | <b>21,2</b>   | 21,2               |
|       | Somewhat satisfied                | 517       | 54,2    | <b>54,6</b>   | 75,8               |

|       | Total                             | 947       | 99,3    | <b>100,0</b>  |                    |

Odpovede: od veľmi spokojný po veľmi nespokojný.

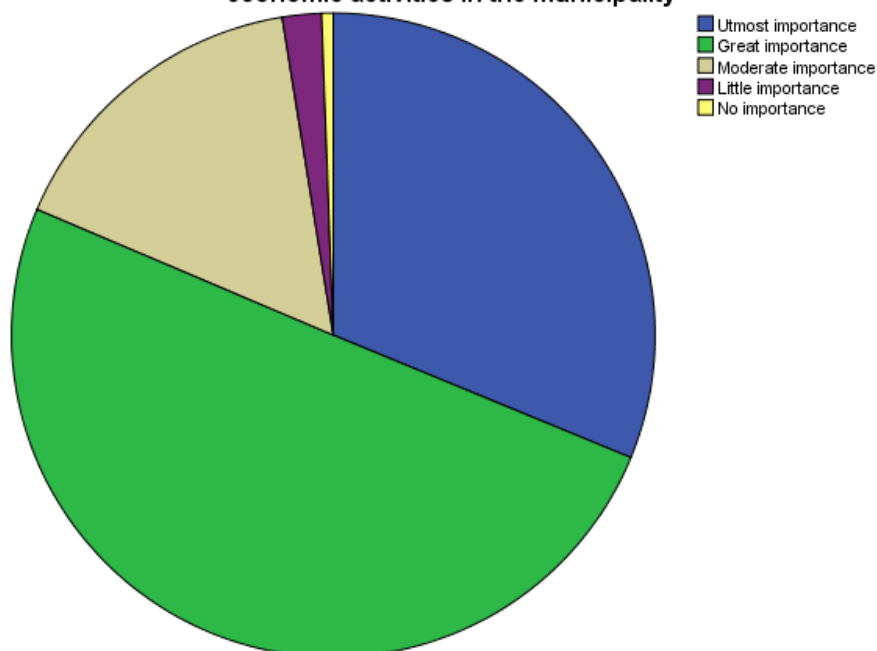

Personally, what level of importance do you think should be granted to the following goals in the local authority agenda? Be careful not to use the option "utmost importance" intensely (max. once on this screen) - To attract economic activities in the municipality.

Aký význam by sa mal podľa Vás pripisovať nasledujúcim cieľom v agende miestnych orgánov - Podporovať rozvoj ekonomických aktivít v obci, prilákať investorov.

|       |                     | Frequency | Percent | Valid Percent | Cumulative Percent |
|-------|---------------------|-----------|---------|---------------|--------------------|
